Note: If you have been prescribed medication previously for mental health concerns, the quickest way to obtain assessment and documentation is through your healthcare provider who prescribed you the medication. If you have never received any mental health treatment before, and wish to be assessed for depression, bipolar, anxiety, PTSD, or schizophrenia (e.g., any diagnoses that are not related to ADHD or learning disabilities), the clinics and practitioners listed below also provide assessment for those diagnosis. However, the quickest way to obtain assessment and documentation is to schedule an appointment with a primary care physician or a psychiatrist and ask them to assess you. This would be faster than going through the formal psychological assessment procedure for diagnosis that are not related to ADHD or learning disabilities.

Clinics

UW Learn Clinic

Psychological services and training center. Training clinic with estimated cost between \$3,700-\$4,500 based on a rate of \$230/hour. Payments of \$1,300 are required at the initial intake session and 2nd testing session.
